

decor
wall

DecorWall raccoglie al suo interno l'unione di più elementi che, rimescolati, danno vita ad una serie unica di prodotti per la decorazione d'interni. L'ecologia, chiave che lega i media da stampa agli inchiostri a base acqua, si unisce alla cura del lavoro artigianale **Made In Italy** e all'ideazione di grafiche concepite appositamente per rendere unici i vostri spazi abitativi, lavorativi o di svago anticipando i trend contemporanei. La vasta gamma di finiture offerta consente una scelta pressochè infinita di combinazioni: è possibile personalizzare ambienti esterni o interni sempre in maniera differente, con soggetti grafici a catalogo o forniti direttamente dal cliente. I molti anni di esperienza accumulati nel settore ci permettono di seguire il cliente dalla progettazione alla consegna, suggerendo il prodotto e l'immagine più adatti alla zona da decorare. Il tutto in tempi rapidi e dando soluzione anche al più complesso problema che possa presentarsi in corso d'opera.

MATERIALI

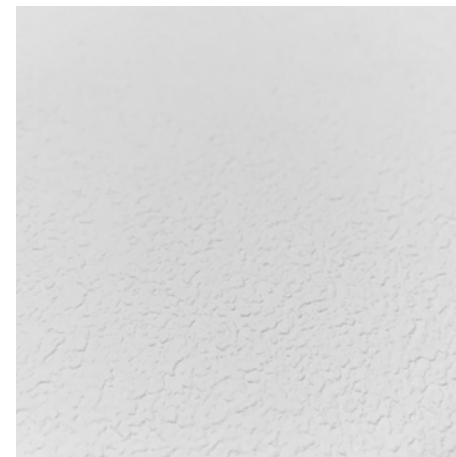

Smoothwall

Carta da parati Ecologica ed Ecocompatibile realizzata in supporto strutturato di tessuto non tessuto, 100% PVC-free. Finitura Liscia

Classicwall

Carta da parati Ecologica ed Ecocompatibile realizzata in supporto strutturato di tessuto non tessuto, 100% PVC-free. Finitura leggermente gofrata.

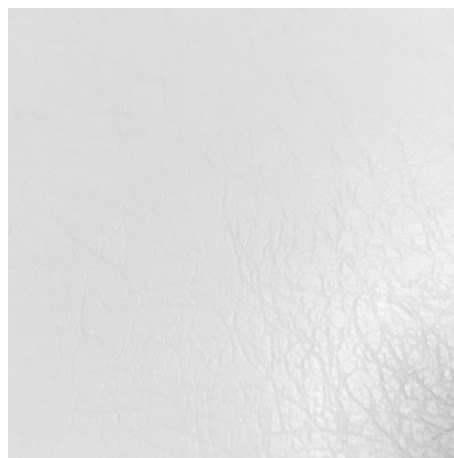

Stuccowall

Carta da parati Ecologica ed Ecocompatibile realizzata in supporto strutturato di tessuto non tessuto, 100% PVC-free. Finitura leggermente gofrata molto gofrata.

Phonowall

Supporto per decorazione murale con funzione di fonoassorbenza in polivinile con retro in tessuto non tessuto.

Skinwall

Canvas materico 3D con spalmatura di PVC in pelle supportata da tessuto in cotone.

“Un’immagine vale più di mille parole.”

Our drummer, a boy from Tennessee,
Beating for help the walls

I was about to desert my post, but the officer of the guard approaching with two men. We all looked at the ground and then as it became a light I heard the drum. I listened—the sound of the drum was familiar to me—and I knew that it was

the captain asked, "Where are the boats?" Colonel Weer determined to beat Gens. Schofield and his men, I marched upon two other roads, regular. "Make them sit," the quickest way possible. The Captain took on two two men on beds of the pine woods, and covered them with tarpaulins, and making a cable out of prologs, was crossing his battery with two hours! The boys ran over the rope across the sheer ledge, and all aiming to get across by remaining horses and their tails lifted, when suddenly they fell into a shell and fell it against the ground of the opposite shore, my hat and pocket and all things went on ground and I was in the water. The boat was made and I was in the water. The boat was in constant use and had not a single accident happened.

Our drummer, a boy from Tennessee,
Beating for help the walls

I was about to desert my post, but the officer of the guard approaching with two men. We all looked at the ground and then as it became a light I heard the drum. I listened—the sound of the drum was familiar to me—and I knew that it was

ECOLOGIA

Azienda Di Stampa Certificata
Tecnologie HP Di Stampa Al Lattice

DecorWall utilizza solo tecnologie di stampa ecologiche che hanno ottenuto le certificazioni più importanti a livello europeo. HP® ha rilasciato a Design Revolution – proprietaria del brand DecorWall – l’attestato di Azienda di Stampa Certificata per l’utilizzo di Tecnologie di stampa al lattice; ciò assicura una produzione effettuata tramite l’ausilio di inchiostri con acqua e lattice: questi conferiscono al prodotto una protezione aggiuntiva contro i graffi rendendolo lavabile. L’utilizzo di media PVC-free consente di ridurre quasi a zero l’impatto ambientale dal punto di vista produttivo: in questo caso infatti non vengono generati scarti non riciclabili in quanto ogni prodotto che non viene utilizzato è riciclabile.

DECORA IN AUTONOMIA!

DecorWall offre gratuitamente all'interno del proprio sito internet www.decorwall.it il Design Tool, un sistema automatizzato molto intuitivo per la personalizzazione autonoma delle pareti. Grazie a questa applicazione web, è possibile creare un progetto realistico della decorazione della parete di cui si dispone: possiamo impostare le dimensioni, aggiungere ostacoli (come ad esempio porte o finestre) e scegliere la grafica dal catalogo DecorWall oppure caricarne una propria. Questo sistema consente di ridurre i tempi di realizzazione e interazione con i nostri grafici ottenendo il prodotto finale in tempi più rapidi.

STAFF AL TUO SERVIZIO

DecorWall collabora con i propri clienti offrendo competenza e disponibilità. In fase di preventivo, ordine, produzione e installazione siamo in grado di seguirvi costruendo così un rapporto professionale che vi faccia sentire sicuri di avere delle basi solide anche per progetti molto importanti.

CAMPIONATURE & PROFILI COLORE

Forniamo campionature gratuite di qualsiasi grafica e/o materiale abbiate necessità, sia di immagini a catalogo che personalizzate. Le dimensioni standard sono 40x60cm e riportano i dati del cliente, il codice prodotto e la data di realizzazione. Le nostre macchine da stampa vengono profilate mensilmente, è possibile richiedere il profilo da inserire nel file grafico per poterlo elaborare a monitor con la serenità di un colore verosimile allo stampato.

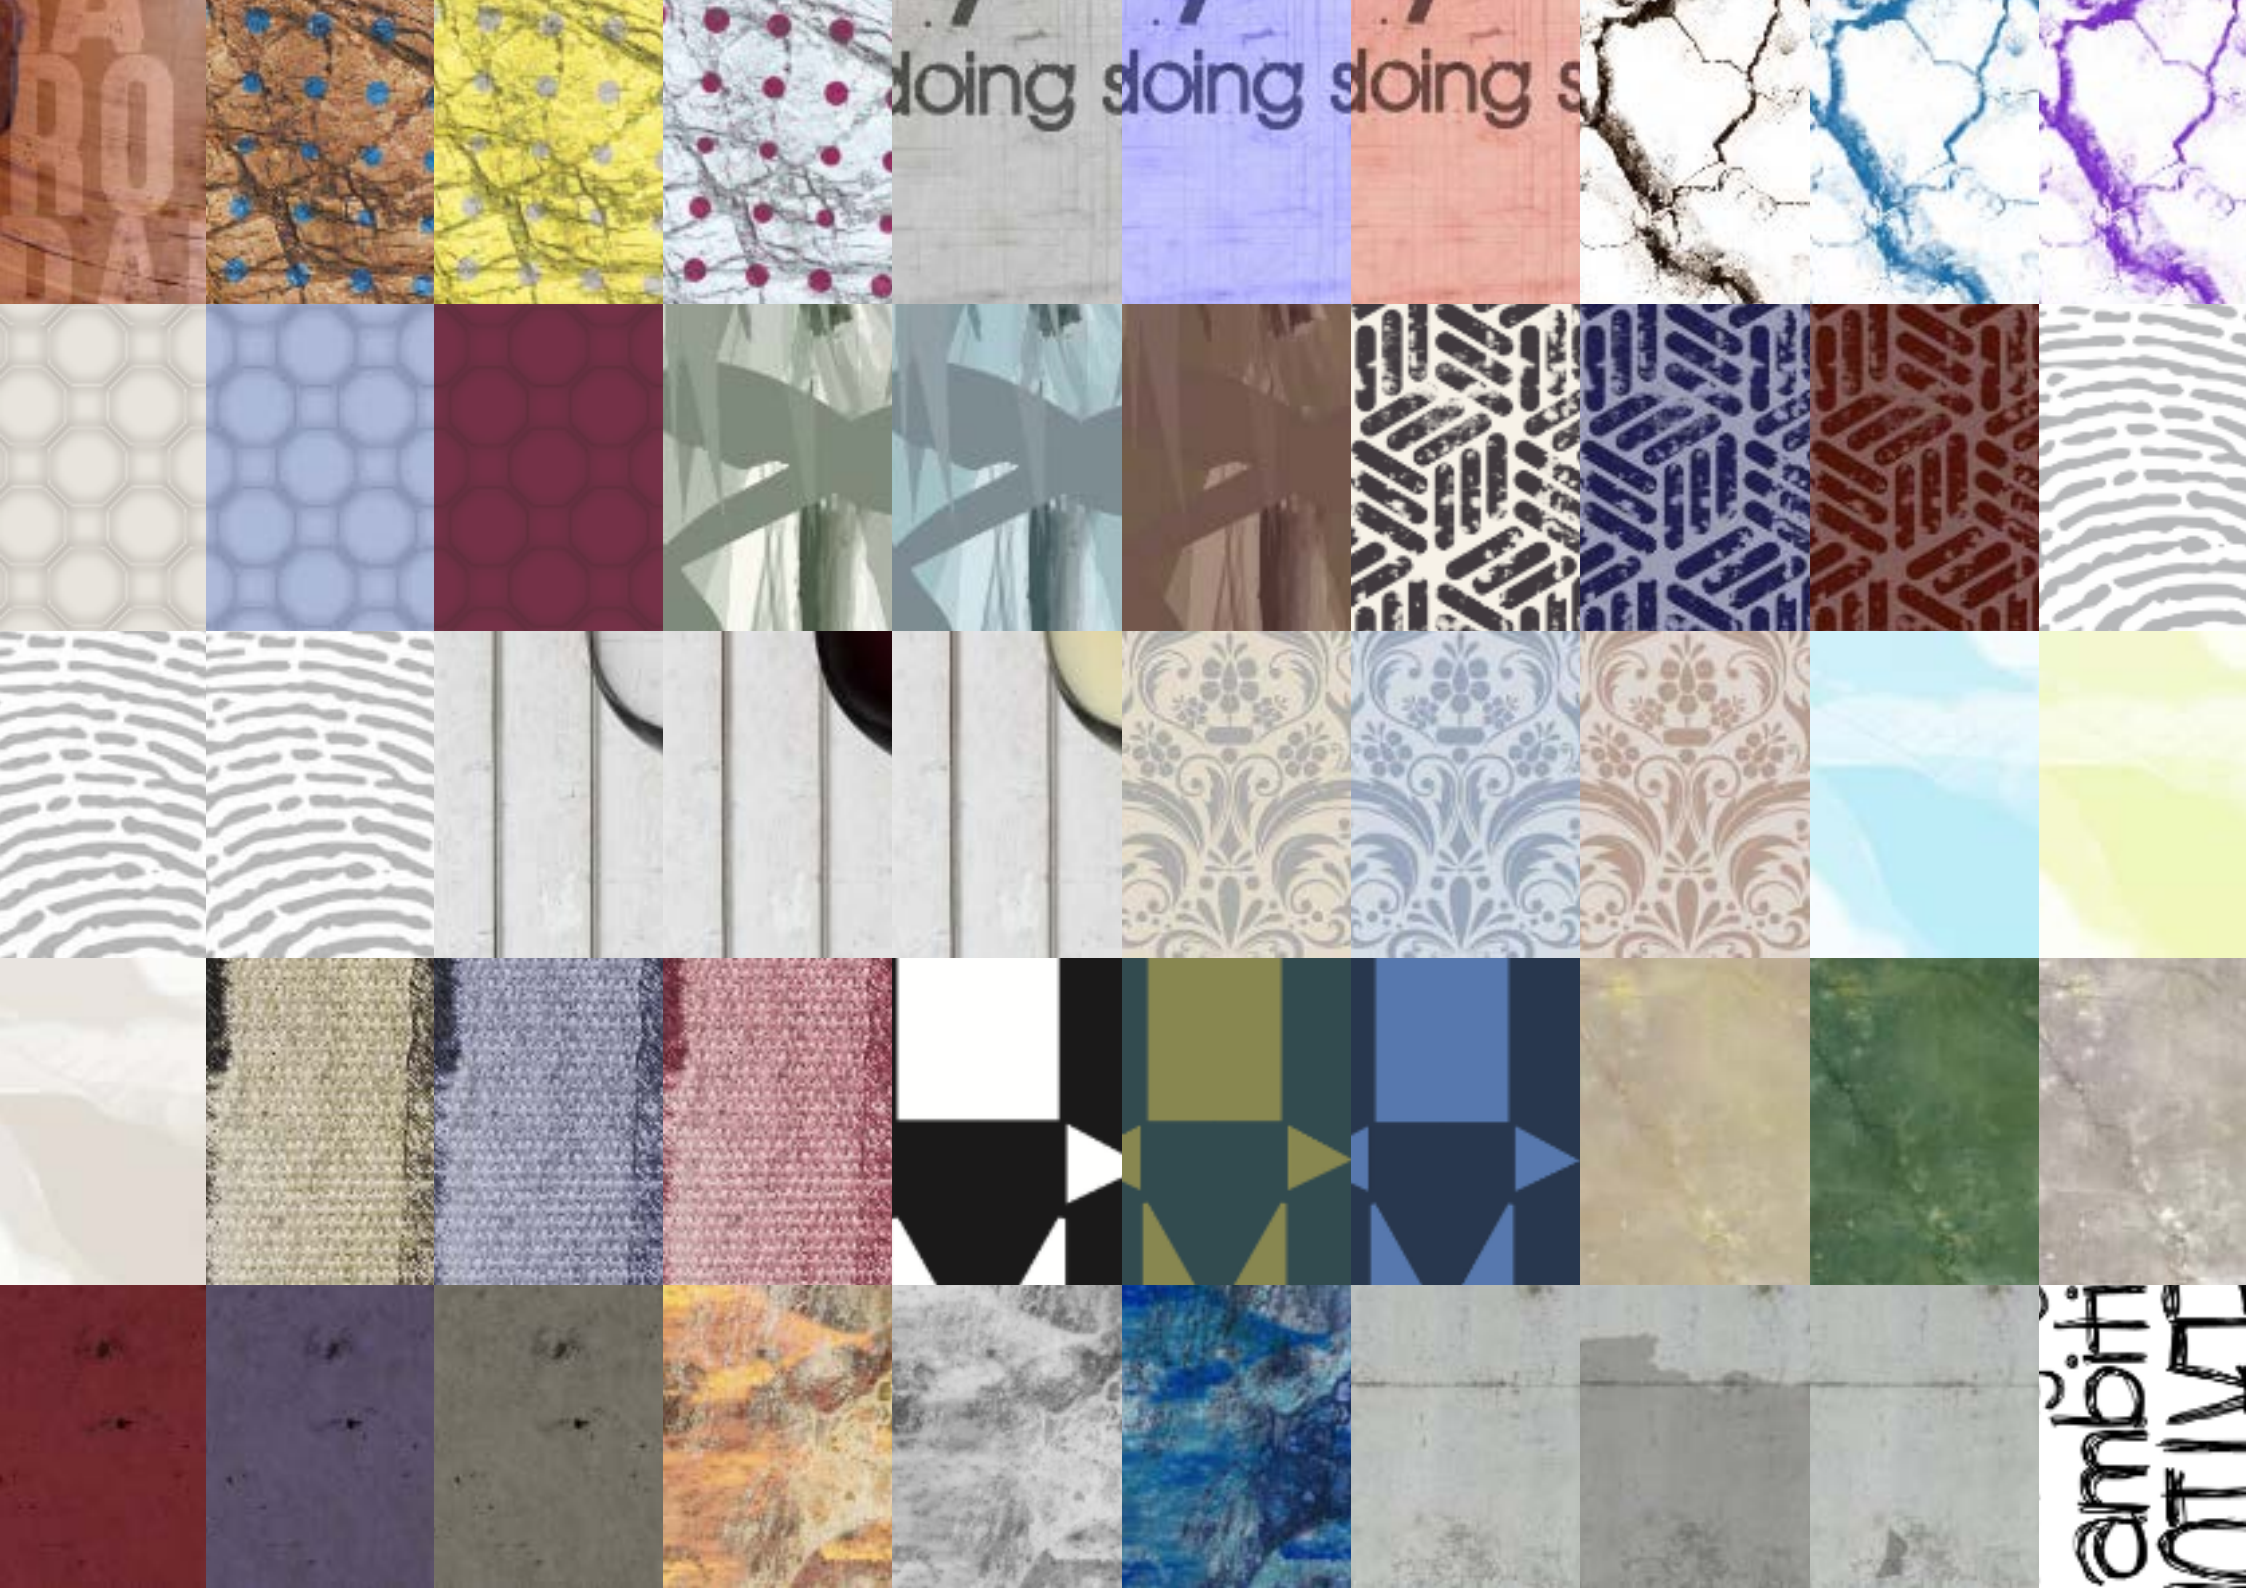

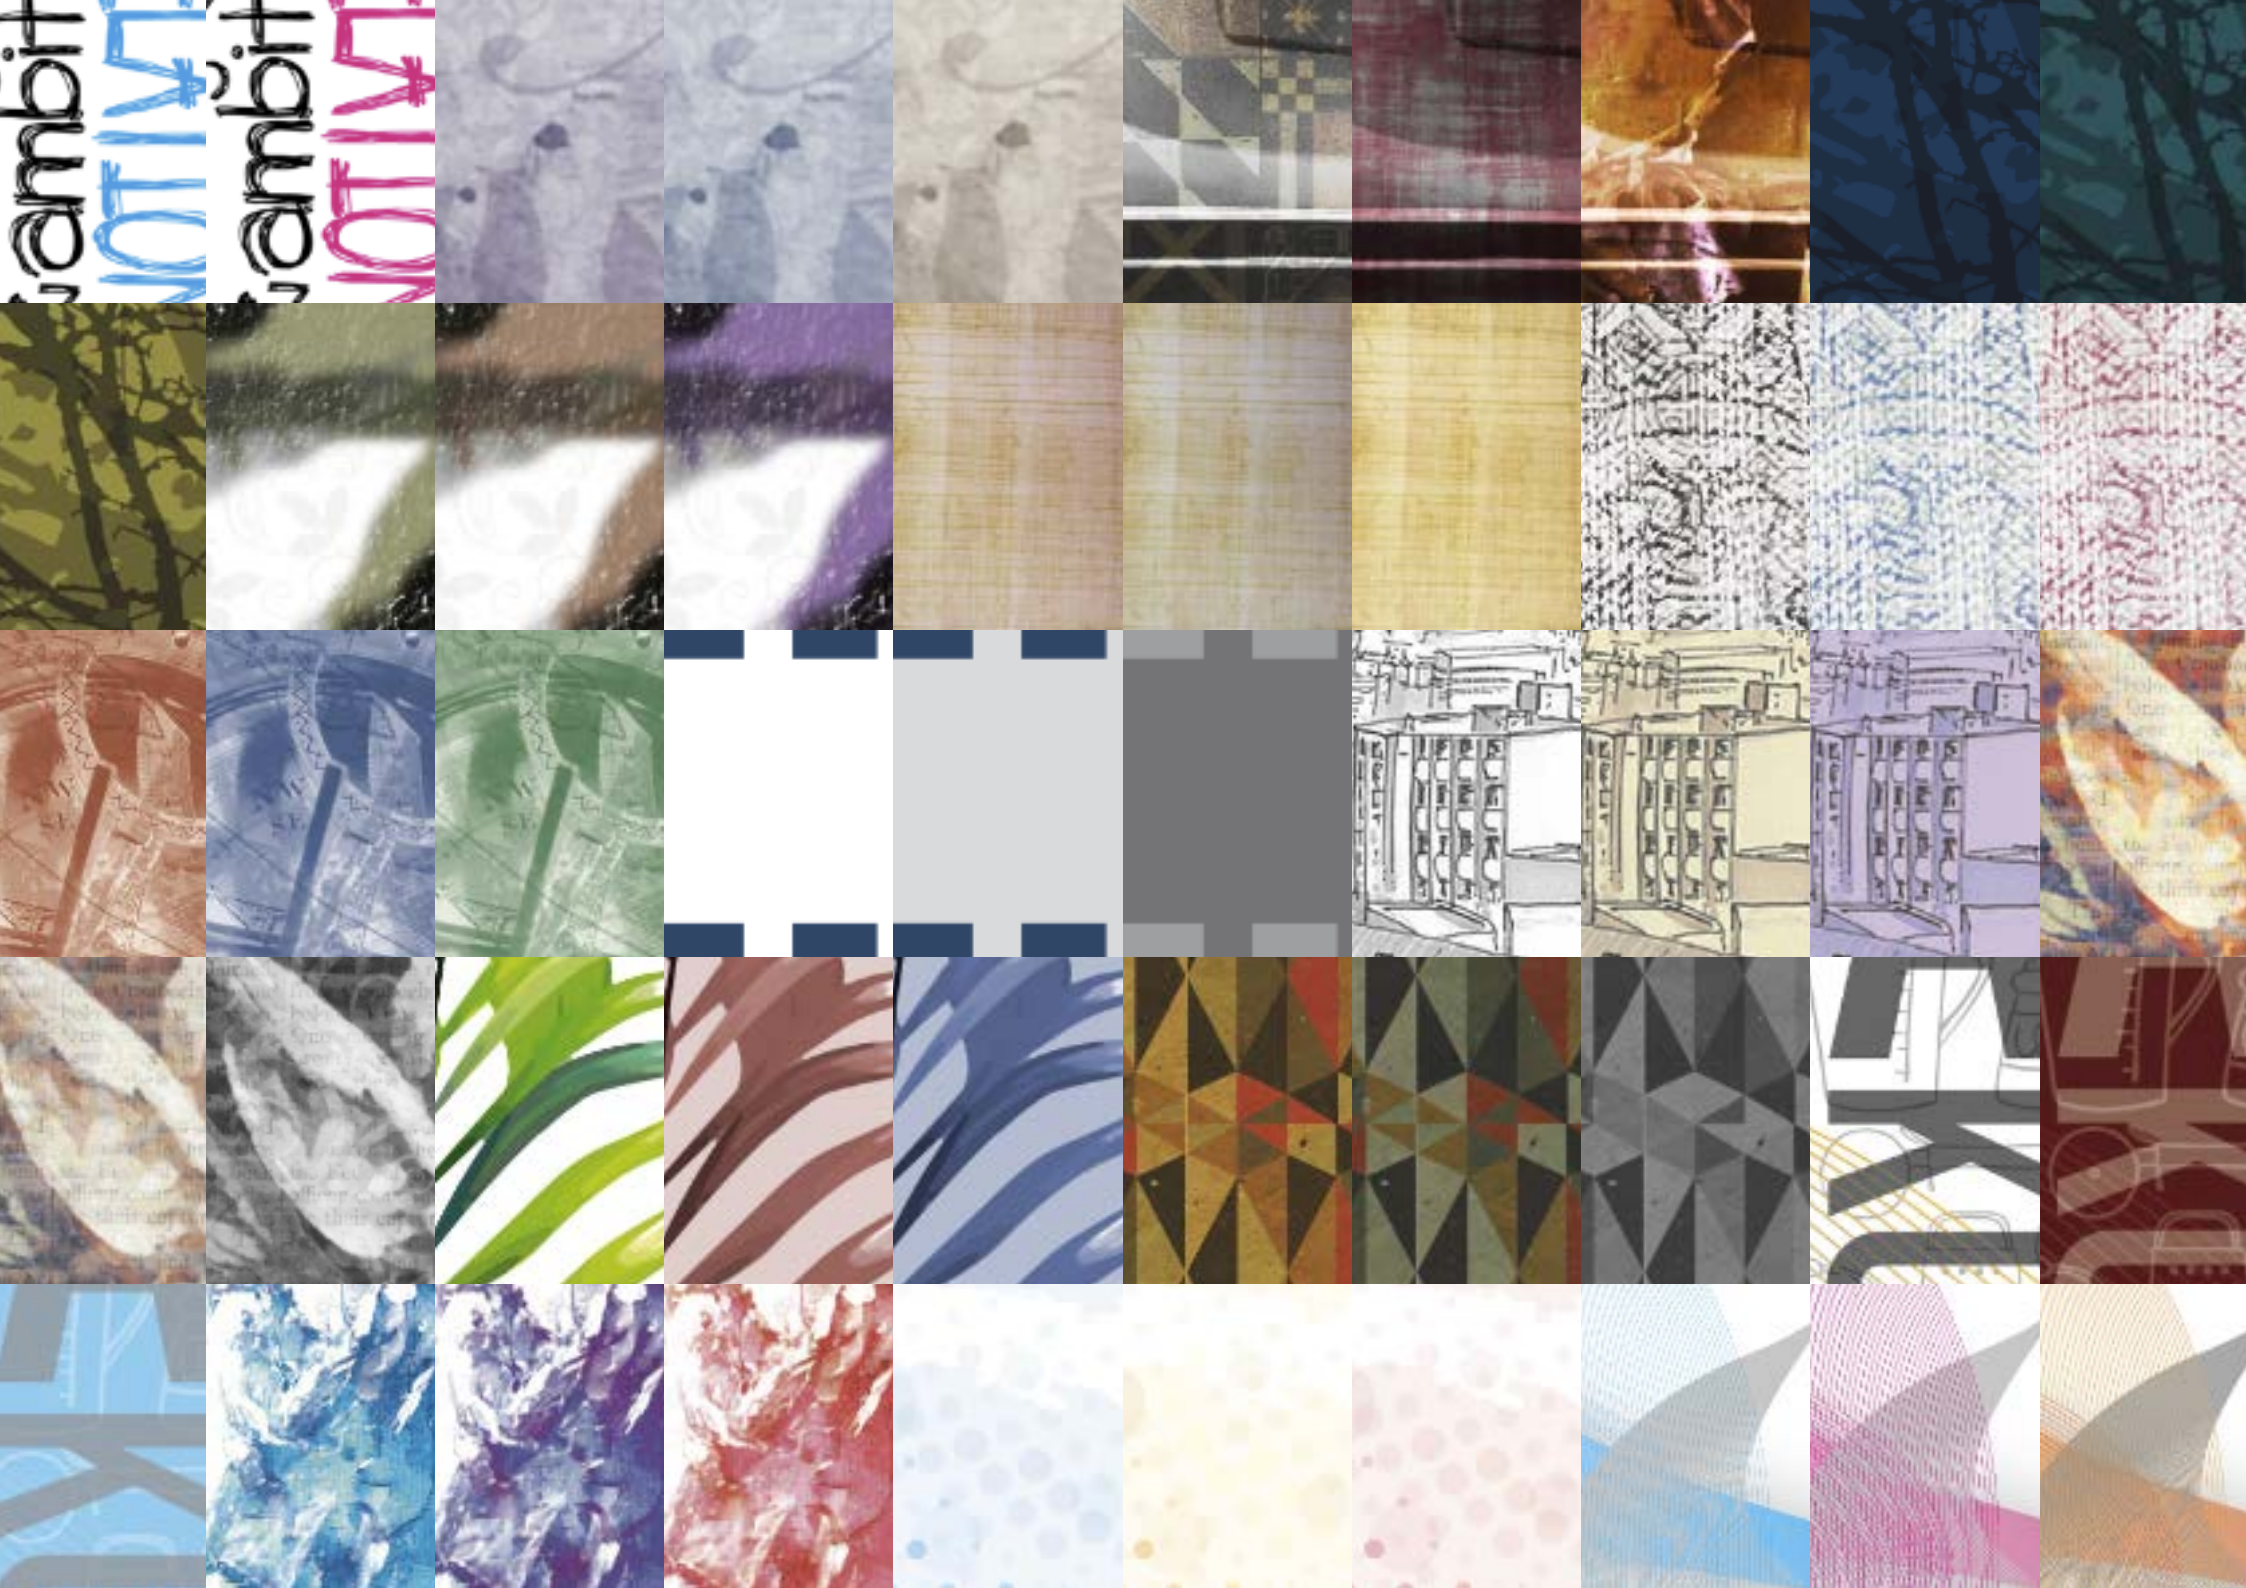

IDEAZIONE GRAFICA

Il nostro team di grafici è al vostro servizio per realizzare modifiche sulle nostre grafiche a catalogo (cromatiche o strutturali) o per ideare nuove immagini partendo dalla richiesta del cliente. Non c'è limite alle possibilità: uniremo le vostre idee alle nostre competenze per un risultato senza eguali che riesca ad accontentare anche il più delicato desiderio.
